

**Goatlets and Sheep for Sale at Gatton Auction next Monday,
22nd February 2016, 11am**

For the first time we will offer two lovely pure bred British Alpine milking goats at auction. There will be no more offered this year. Our 3 does each produced 3 kids last year. We sold most of them while young but kept four of the best of the does. We are keeping two and will sell two.

Goats are often sold first on the dot of 11am so do not be late or you may miss them.

These are the two does for sale:

Our goats are very productive – we get all our own milk, cream, whipped cream, butter, cheese and kefir from them. They are easily trained and lovable. They do not climb fences, and are clean and fastidious in habits. Both healthy, CAE accredited, pure bred British Alpine.

We are happy to give advice to people thinking of getting into goat husbandry.

Here they are when younger:

Finally, have a giggle with the goats:

We will be also be selling sheep at the Gatton Auction next Monday – 5 pens of sheep – young Meatmaster and Damara ewes and wethers. Ewes could be pregnant but not guaranteed. This is our first auction of the year. We have reduced sheep numbers so auctions will be less frequent now.

Sheep and goats are sold first, on the dot of 11am, so do not be late or you will miss the early bargains.

For more information about these auctions see:

Please feel free to ask about rams and other top class ewes which we reserve for on-farm sales and do not sell at the Gatton auction. Speak to Judy at the auction, or email us. We have very good stud Damara and Meatmaster rams now, and will find some good ewes to go to people who buy rams. (And we will find a ram for those who buy our ewes at the auction.)

Apologies to those who get this but are too far from the Auction. If you wish to be removed from our sheep mail list, just hit "Reply" and type "Unsubscribe" in the subject line. Or tell us you cannot ever get to the auction – we do not even have post codes for some people.
